CLOUD SECURITY ENGINEER

Languages: Python, Bash, SQL, and Javascript

Operating Systems: Windows, Linux, macOS, iOS, Android

Databases: Access, Oracle, and MySQL

Cloud & IaC: AWS, Azure, GCP, Terraform.

DevOps & Observability: GitHub Actions, Jenkins, Prometheus, Grafana, ELK.

Security & Compliance: Zero Trust, IAM, SIEM, SOAR.

Containers & Orchestration: Docker, Kubernetes (EKS).

CERTIFICATION & EDUCATION

CompTIA Security+ (SY0-701) | 2025

AWS Certified Solutions Architect - Associate | 2026

ISC2 Certified in Cybersecurity (CC) | 2025

AWS Security - Specialty (candidate July 2026)

[B.Sc.](#) Biochemistry, Chukwuemeka Odumegwu Ojukwu University | CGPA: 3.8/5.0

PROJECTS

Cloud-Resource-Map: Multi-cloud visibility tool (FastAPI, Boto3) for AWS/Azure/GCP. Used internally by a cybersecurity consultancy.

AWS Security Monitor: Python tool (Lambda, CloudTrail, SNS) detecting IAM drift. Reduced misconfiguration exposure by 80%.

Flask-CICD-API: Production Flask API containerized with Docker. Deployed to AWS App Runner and Azure Container Apps.

AWS Three-Tier Architecture: Load-balanced, auto-scaling deployment on AWS with Terraform. 99.95% availability.

Relevant Coursework

Neo Cloud - Solutions Architect & Cybersecurity | Cantrill AWS Solutions Architect, Security, Devops, Docker, and SysOps Engineer | Google Data Analytics & AI Essentials (Coursera)

PROFESSIONAL EXPERIENCE

Torilo Academy | Remote Cloud Computing Tutor

- Deliver live cloud security curriculum to 50+ students with 90% project completion rate.
- Lead hands-on labs in AWS, Terraform, GitHub Actions, and containerization.

SAGE Consolidated | Lagos Nigeria 02/2025 – Present Cloud Security Engineer

- Reduced critical vulnerabilities by 60% using Zero Trust IAM and network segmentation.
- Improved system uptime to 99.99% with Kubernetes (EKS) auto-scaling deployments.
- Cut Mean Time to Detection by 50% after deploying observability stack (Prometheus/Grafana/ELK).

Draug Nigeria Limited | Abuja, Nigeria Security Engineer (Contract)

- Architected enterprise cybersecurity strategy (NIST, ISO 27001, GDPR) for Series A readiness.
- Secured a government pilot contract by leading Smart Patrol System (BMS) proof-of-concept.

Neo Cloud Technologies | Abuja, Nigeria 01/2024 – 01/2025 Solutions Architect

- Reduced cloud operational overhead by 25% for 3+ enterprise clients.
- Cut manual audit prep time by 6 hours per week via automated compliance checks (Lambda + SNS).

ACTIVITIES

Platoon Leader NYSC Camp Benue, Nigeria.
50+ articles on AWS security and DevOps (dev.to).

June – July 2024
September 2024 - till date
